

Name: _____

Native American Research Project:

My region is: _____

You will be creating either a PowerPoint presentation or a diorama about one of the six Native American cultural regions: Southeast, Northeast, Plains, Southwest, Northwest, or Arctic. You can use information from your in-class Native American research, materials from your Social Studies tab, or websites you may find on your assigned region.

Research that needs to be covered:

1. Name of Native American Region
2. Describe the region you chose (temperature/climate, water sources, productive resources, map, etc.)
3. Types of Homes
4. Transportation
5. Clothing
6. Food
7. Interesting Facts
8. One Page Hand Written Paper

If you choose PowerPoint: you must include all of the researched items, along with pictures. This can be emailed to Mrs. McDavid or brought in on a thumb drive to be presented.

If you choose diorama: you will be creating a 3D model of what your region looked like. You can use things like paper, clay, sticks, toothpicks, or any other creative supplies you need.

Diorama examples:
